

Flagstaff to Grand Canyon Stagecoach Line 100-Mile, 55K & Relay Course Marking

Here's what you should be looking for while running this event. The race course follows the Arizona Trail for the majority of the route. Become familiar with all Arizona Trail markers (see below). Race management will mark the entire course with a mix of orange ribbon, reflective tape, directional arrow signs and orange pin flags (see examples below). There are five places where you'll deviate from the Arizona Trail during this event, please make note of them. They are:

1. The first mile of the course is not on the Arizona Trail.
2. Miles 6-14 when you leave the AZT at Aspen Corner and deviate to FR151, The Nature Conservancy Aid Station & Bismarck Lake.
3. The half-mile out-and-back to Moqui Stage Aid Station (near mile 60).
4. The 3-mile out-and-back to the Hull Cabin Aid Station on FR307 (mile 79 to 82).
5. And the final mile to the IMAX and finish line.

Examples of race directional signs

Nighttime reflective tape, orange ribbon, orange pin flags and directional finger signs

Arizona Trail brown carsonite posts

AZ Trail carsonite on trees

AZ Trail carsonite on fence posts

AZ Trail historic wooden posts

AZ Trail rock cairns
